

Our Panel Chair, **Andrew Roughan**, is CEO of Plexal, the innovation company solving some of society's biggest challenges through technology and collaboration. Andrew has strategically created Plexal's collaborative innovation ecosystem to simultaneously improve national security while creating economic growth and prosperity for businesses and communities.

**Martine Wauben** is Head of Data for London at the Greater London Authority, realising the Mayor of London's vision to make it simpler for people to share and use data held across London to improve the city and benefit Londoners.

**Abdul Rahim** is an accomplished professional with extensive experience in business and management. Abdul co-founded and played a pivotal role in designing, building, and scaling one of Europe's most effective networks for R&D and innovation funding. Abdul currently serves as SHIFT's Chief Innovation Officer.

**Tanya Popeau** is the Director of Synthesis, an award-winning agency. Her expertise lies in innovation and sustainability. She has worked with the world's leading corporates, non-profits, government agencies and academic institutions, to design breakthrough innovations to global challenges.

**Emma Frost** is highly experienced in delivering strategic integrated urban regeneration programmes. She worked on the London Olympic and Paralympic Legacy from bid stage to 10 years after the Games, and she led the formation of SHIFT. She is Chair of the UK Innovation Districts Group.
